

Quality Policy

Our mission

To be as responsive as possible in providing reliable and innovative drilling and completion solutions.

Our Core Values

- **Customer focus:** I make sure that my daily work brings added value for our customers
- **Innovation:** I constantly seek to improve the way we work by creating innovative solutions in all our activities.
- **Fair Play:** I always act according to the rules and build relationships based on honesty, respect and trust.
- **Passion to win:** I want to make my company number one. I like to compete. I set ambitious objectives and respect my commitments

Our vision

Create added value for our clients at the best possible cost in order to accompany them on a daily basis in their explicit or implicit projects and needs

Quality

Customer orientation: continuous improvement of product quality, service rate and production lead times

Operational efficiencies: continuous improvement of the synthetic rate of return (SRR) and reduction of non-quality costs

Increase Revenue: manufacturing variances controlled

Organizational development: reduced absenteeism rate and increase employee engagement.

Revenue

Engagement

Operational Excellence
